## Our Mission Statement

Our goal at DJO is to create a party that is elegant, festive and polished. It's our objective to provide music that encourages an atmosphere of celebration, dancing and enthusiasm. We know that the events we play are of utmost importance to you, therefore we will provide entertainment and production support that is of the highest quality. Most importantly, we promise to maintain integrity in our approach, contact and communication with you, our clientele.

We invite you to explore the possibilities...

## About The Band

We believe in the "organic" full band sound. Our instrumentation consists of a lush horn section, keyboards, guitar, bass and drums. Stylistically our vocalists run the gamut. We gravitate toward elaborate musical arrangements such as those by Earth Wind and Fire, Barry White, and a variety of Motown, Funk, and Big Band productions. Our music is live! We do not believe in the use of sequencing and artificial background tracks.

With our extensive repertoire we can customize the party according to your needs.

Whether you prefer an evening with a focus on Big Band, Glen Miller, Rock or 70's Disco, we can perform the repertoire at your request. Most of our parties work best when incorporating a variety of dance styles and songs. In our experience, most successful events rely on the expertise and experience of the band leader to "read the crowd"; spontaneously selecting music that is appropriate to that given moment, within the framework of your personal guidelines.

## Meet Miss Jones

*How do you account for the popularity of The Deanna Jones Orchestra?*

“Our goal at DJO is to hit a homerun every time. We strive to give 110% at each and every event, period. Having this attitude, we find that people who want a consistently outstanding orchestra, call us. Due to this philosophy we’ve been fortunate enough to have worked at events for many top-tier corporate clients as well as other great parties for celebrity clients and guests.”

*What is your philosophy on band leading?*

“Finesse is a key word. I always want the party to be elegant but very fun and hip. I’ve put together a group of musicians who are spontaneous, upbeat and positive. I also believe my band has its own intangible essence. I think we always add a flair of sophistication and energy that truly enhances each party. I am acutely aware of the fact that our goal at these events is to create a lasting memory in the minds of our clients and their guests. I want to ensure that our performances far exceed the expectation of our clients. That memory should be extremely positive.”

*How does being a female bandleader differentiate you from the mostly male bandleaders?*

“I enjoy the camaraderie and spirit of the other women, party planners, florists etc in this business. It is a pleasure working with other strong women in an industry that has been historically dominated by men. Specifically, it is still a rare sight seeing a female bandleader. I think a successful bandleader needs to be very intuitive and have a connection with their clients, and I believe my ability to connect with my clients in that way differentiates me from the other bandleaders. I also think that the brides nowadays are very savvy and appreciate working with someone who will listen and be sensitive to their input while still offering their opinion when needed.”

**CREDITS:** Featured performer at Presidential Inaugurals/Songstress for many exclusive clients such as weddings for Michael Douglas & Catherine Zeta Jones, Donald Trump & Marla Maples, Kenneth Cole & Maria Cuomo, and Geraldo Rivera & Erica Levy. Bandleader for events for Jimmy Buffett, Julie Andrews, John McEnroe, Bette Midler, Matt Lauer and social clients such as Ron Lauder, Ronald Perelman, the Tisch family, Carlyne Roehm, and others.
